PROFESSIONAL SUMMARY

Enthusiastic Data Science professional with experience in Python, SQL, Machine Learning, and data visualization, with strong expertise in EDA, data preprocessing, and insight generation. Proficient in NumPy, Pandas, Power BI, and modern development tools.

SKILLS

Programming Languages	Python, SQL
Python Libraries	NumPy, Pandas
Machine Learning	Supervised & Unsupervised Learning, EDA, Data Preprocessing
Data Visualization	Power BI, Excel, Matplotlib, Seaborn
Statistical Analysis	Basic Descriptive Statistics, Inferential Statistics
Platforms	PyCharm, Jupyter Notebook, Visual Studio Code, Google Colab

PROJECTS

AI Powered Multi Doc Conversational Chatbot Using RAG May 2026

Machine Learning + NLP Project — Python, Streamlit, Google Gemini API, RAG Pipeline

- Built a multi-document RAG chatbot that supports PDF, DOCX, TXT, CSV, JSON, and XML inputs.
- Implemented chunking, retrieval, and grounded response generation with answer style controls (Detailed, Short, Bullet Points, Professional).
- Added mobile-focused upload handling, URL-based document ingestion, and auto-processing pipeline for uploaded files.
- Deployed publicly on Streamlit Cloud with secure API key management using environment secrets.

Phishing Detection System Through Hybrid Machine Learning Based On URL Jun 2025

Machine Learning Project — Python, XAMPP, Seaborn, Excel

- Architected a hybrid machine learning model combining Random Forest and SVM to detect malicious URLs, achieving high classification accuracy.
- Optimized detection through the implementation of a lightweight ensemble approach enabling real-time classification of phishing attempts.
- Built a phishing detection system using a phishing dataset with regression techniques.
- Created a system that automatically scans website links and pages to find hidden red flags and suspicious characters to stop phishing attacks.

EDUCATION

Intermediate (MPC) — 63% 2020 – 2022

Scholars Junior College, Makthal
Makthal, India

SOFT SKILLS

- **Effective Communication:** Proficient in conveying complex ideas in a clear and concise manner to diverse audiences, fostering better understanding and collaboration.
- **Time Management:** Effective time manager with a history of meeting deadlines and efficiently prioritizing tasks.

- Team Collaboration: Demonstrated ability to work harmoniously within cross-functional teams by actively sharing and listening to ideas.
- Networking: Skilled at building and nurturing professional relationships.
- Problem Solving: Strong problem-solving skills evidenced by the ability to analyze complex issues, identify root causes, and devise innovative solutions.
